Nero®
Collection
Make a statement with the Lockwood 143 Entrance Handle; constructed using the finest materials to incorporate the maximum standards in durability, finish and design.

Suited to both residential and commercial applications, this handle is supplied with spigots to suit 10 – 12mm thick glass doors as well as aluminium and timber doors up to 50mm thick.

Features

- Constructed of 304 grade stainless steel
- Suitable for use in both internal and external environments
Paradigm® 005 Double Cylinder Deadbolt

The Paradigm 005 Double Cylinder Deadbolt is the premium security solution with its innovative safety features. Its contemporary styling can be combined with the entrance handle and leversets in the Nero® range to create an elegant look to any front door.

Features

- Three function modes with DualSelect® provides perfect combination of convenience and security
- High security cut resistant stainless steel bolt
- Safety Release™ automatically unlocks internal knob upon key entry from outside
- LockAlert® indicator shows lock status at a glance
- Available in round and square rose
Nexion® Mechanical Entrance Lockset

The Lockwood Nexion Mechanical Entrance Lockset represents the next generation in home security.

Designed and manufactured to the highest quality standard, the Lockwood Nexion range has set the benchmark for safety, security and style. The Nexion range of deadlatches offers the ultimate protection for your home and family.

Features

- SafetyRelease™ automatically unlocks the inside handle upon entry to minimise the risk of being locked in
- LockAlert® indicator shows lock status at a glance
- Three modes of security: Secure, Safety and Passage mode provides excellent security without compromising convenience
- Designed to be keyed to builder’s key systems as well as keyed alike to other Lockwood door locks
- Conforms to Australian Standard AS4145.2-2008 S,7D8C5K6
Velocity® Large Rose Series Element Lever

Be confident with a design that transcends the basic functional and aesthetic requirements of residential hardware.

Setting the benchmark in ease of installation, the Lockwood Velocity leverset is supplied pre-assembled with no loose screws or spindles. Screws align through the rose removing the need to locate them blind through the door. A twist and a quick tightening of the screws and the levers are installed!

Featuring a 63mm round rose or 66.5mm square rose, the Nero® Velocity Large Rose Series is suitable for retrofit and common residential door preparations.

Features

- All fixings are concealed beneath a removable rose trim providing a crisp and clean presentation desired by the discerning home owner
- Simple twist and tighten fixing method with pre-assembled lever set allows for super easy and fast installation
- Available in a choice of square or round rose with the Element lever design
- Designed in Australia for the specific needs of the Australian market

FP2 Flush Pull

Providing minimalist perfection, the Lockwood Nero® Flush Pull is suited for numerous applications which require the door furniture to be flush with the surface of the door.

Feature

- Fitted flush against the panel of the sliding door for full recess into the door cavity
The Symmetry door furniture range offers builders, developers, specifiers and interior designers a wide selection of product that can be used in any residential application.

The Symmetry series is produced to meet the demanding quality and style requirements of the Australian market.

All products are tested in accordance with the security and durability requirements of the Australian Standards.

**Symmetry 5 Year Finish Guarantee**

Lockwood guarantees to replace Symmetry product if within five years from the proven date of purchase it tarnishes, discolours or corrodes when properly installed and subject to no more than fair wear and tear.

**OneCyl**

The exclusive one cylinder assembly solution ‘OneCyl®’ has been designed for the entire Lockwood Symmetry Range, which grants the convenience of cylinder interchangeability.

Entrance Solutions
Velocity®
Entrance Lockset
The Lockwood Velocity Entrance Lockset is the latest development in the Entrance Lockset range. Designed and manufactured to Australian Standards, the Velocity Entrance Lockset provides a simple and functional entrance lock to complement the Velocity Door Handle range.

**Features**

- High security latch
- Box strike with concealed crossgrain door frame strengthening screw
- Installation template included
- Can be keyed alike to other Lockwood door locks
- Retrofittable

**Quick Installation**

Easy installation, retrofits most common front door preparations.
Nexion® Mechanical Entrance Lockset
The Lockwood Nexion Mechanical Entry Locksets represent the next generation in home security.

Designed and manufactured to the highest quality standard, the Lockwood Nexion range has set the benchmark for safety, security and style. The Nexion range of deadlatches offers the ultimate protection for your home and family.

The Nexion Mechanical Entry Lockset is available in two different plate styles and a range of lever styles, allowing you to achieve a consistent style throughout your home.

**Features**
- SafetyRelease™ automatically unlocks the inside handle upon entry to minimise the risk of being locked in
- Lockout Release automatically unlocks the outside handle when the inside handle or snib is operated
- Factory set for left hand opening doors, easily changed for right hand opening doors.
- Can be keyed alike with other Lockwood door locks
- Conforms to Australian Standard AS4145.2-2008 S.7D8C5K6
The Lockwood high security deadbolt range offers exceptional safety and security for your home and family.

With the unique, patented LockAlert® and SafetyRelease™ functions, this is the pinnacle in deadbolt security products.

Available in either a round or square rose, with a selection of 5 different finishes including Stainless Steel, the Lockwood 005 Deadbolt is ideally suited for use with the Lockwood range of Door and Entrance Handles.

Features
• Three function modes with DualSelect® provides perfect combination of convenience and security
• High security cut resistant stainless steel bolt
• Safety Release™ automatically unlocks internal knob upon key entry from outside
• LockAlert® indicator shows lock status at a glance
The Lockwood entry-level deadbolt offers standard security for your home.

Available in a single or double cylinder configuration and range of finishes, the Symmetry Deadbolt is ideally suited to compliment Lockwood Key in Knob and Key in Lever locksets.

Features
- Suits left or right hand opening doors
- Solid brass bolt with 25mm projection
- Hardened insert in locking bolt
The iconic Lockwood 001 Deadlatch offers market-leading performance and reliability for your home. Featuring unique, patented LockAlert® and SafetyRelease™ functions, the 001 Deadlatch offers supreme safety for you and your family.

**Features**

- Conforms to the security and durability requirements of Australian Standard AS4145.2-2008 | Si:7D8C6
- Cut-resistant Stainless Steel Bolt
- 11 concealed anchorage points and a door frame strenghtener that combine to offer high security protection
- Hold back function that allows you to use the door in passage mode
Deadlocks

The 303 Single Cylinder Deadlock and 355 Double Cylinder Deadlock suits inward opening, and some sliding doors of 30-45mm thickness.

Both the 303 Single Cylinder Deadlock and 355 Double Cylinder Deadlock can be opened by key from outside and by turn knob from inside. Each feature concealed fixings for superior anchorage and security.

Suitable door types include: single hinged door, single sliding door, pair timber hinged doors and pair timber sliding doors. Glazed doors require minimum side rail.

Security
Conforms to Australian Standard AS4145.2-2008 SL7D8C6.
Paradigm® Pull Handle Lockset
The Australian designed Paradigm Pull Handle Lockset expresses superior state-of-the-art design featuring a contemporary style that delivers exceptional safety and security. The Paradigm Pull Handle lockset is available in Double Cylinder Deadbolt, Single/Double Cylinder Deadlatch variants.

The Deadbolt lockset is suitable for residential, new building and renovation applications whereas, the Single and Double Cylinder Deadlatch locksets are specifically designed for semi-commercial and apartment buildings. Both Single and Double Cylinder Deadlatch variants have been successfully tested up to 2 hours (depending on the type of doorset) on fire assemblies in accordance with Australian Standard AS1905.1-2005, part 1: Fire Resistant Doorset for commercial applications.

Incorporating innovative features from the 005 Paradigm Deadbolt, the Pull Handle is manufactured with high end 304 grade stainless steel that comes in a brushed satin finish, further enhancing the style.

**Features**

- Conforms to the security and durability requirements of Australian Standard AS4145.2-2008 | S.8D8C6K5
- High security cut resistant Stainless Steel bolt/latch
- Door Magnets included to hold the door(s) in position when it is in passage mode (Deadbolt version only)
- Concealed screw fixings provide a neat and clean appearance
Entrance Handles
Lockwood Entrance Handles are constructed using the finest materials to incorporate the maximum standards in style, durability, finish and design.

**Stainless Steel Construction**

Constructed of 304 grade stainless steel, Lockwood Entrance Handles are suitable for use in external environments.

Interior Solutions
Outland Sliding Door Track and FP2 Flush Pull (Nero Collection)
The Lockwood Velocity Series Door Handles offer an exceptional level of quality that is synonymous with the Lockwood brand.

Available in two different rose sizes with a range of finishes and a selection of stylish lever options.

All fixings are concealed beneath the removable rose trim providing a crisp and clean presentation.

Achieve consistent styling throughout your home by matching your internal door handles with your selected Lockwood external lock.

Quick Installation

The frustration of fiddling with small parts or misplacing them during installation is a thing of the past. The Velocity range of lever sets are supplied pre-assembled so there are no loose screws or spindles.

Screws align through the rose removing the need to locate them blind through the door. A twist and a quick tighten of screws and the levers are installed.

1. Align
2. Twist
3. Tighten
