4800 & 5800 Series Lever Suitability

**Application**

All narrow style door furniture will be closer to the door frame. Lever handles with 90 degree angles can cause the lever stem to hit the door frame and prevent the door from opening. The table below provides a guide to lever compatibility and each model of short backset lock from 3782 to 6782. Based on 12mm doorstop.

Brass Levers and Knobs

Finger clearance is defined as the clearance between the lever and the base of the rose or plate at the centre of the lever. The tables below are calculated using an assembled plate/rose thickness of 12.5mm. Due to different bearing bush, the projection and finger clearance of levers in the 4800/5800 Series is 2.5mm larger than the value shown (except Lever 90).

Note: Refer to page 20 for detailed images of levers and knobs to suit this range.

Certain lever designs are not compatible with short backset assemblies due to interference with the door stop. See page 19 for specific lever design suitability details.

For use on the following door furniture series:
- 1220 Series
- 1420 Series
- 1360 Series
- 1370 Series
- 1800 Series
- 2800 Series
- 4800 Series
- 5800 Series
- Artefact Series

Detention Series Square Plate Furniture

A heavy duty plate designed for use in hospitals and detention facilities. Styled for institutional use, this plate has six fixing points to ensure that it is well secured to the door. Plates are designed to be free of ligature points.

**Application**

Designed for use with Lockwood Selector 3770 and Synergy 3570 Series Mortice Locks as well as Lockwood 3579 Secure Area Rated Locks.

**Features and Specifications**

- Anti-ligature - Knob 21 & 22
- Covers fixing holes from existing Artefact 200 Series Furniture
- Detention furniture turns feature a clutching mechanism that allows the cylinder to retract the bolt even if the turnknob is held from the inside

Lever and Knob Selection

Standard Knob 21

Webbed Knob 22

Lever 23
Detention Series – Knobs and Levers

**Standard Knob 21**

Simple yet functional, this knob has soft edges to minimise impact injuries and anti-ligature features that make it suitable for use in detention facilities.

**Webbed Knob 22**

The webbed knob combines pleasing aesthetics, comfortable grip and anti-ligature features to provide a solution for any environment.

**Lever 23**

Ergonomically designed to maximise grip, the detention lever is suitable for use in hospitals and minimum security applications. It caters especially for the elderly or people with arthritic conditions.
Detention Series – Turns

Emergency Turn

Turnknob

Privacy Indicating Emergency Turn

Privacy Indicating Turnknob
Detention Series – Pulls

Flush Pull

The detention flush pull has been designed to maximise grip and eliminate the possibility of hiding objects in the cavity.

Standard Pull

The detention pull allows for a firm grip and can be used to open heavy doors. Also designed to be free of hanging points.

Torx anti-tamper, snake-eye and standard screws are available in accessory packs to suit different door thicknesses. Only standard screws to suit doors 35mm – 45mm thick are supplied with furniture. Other variations need to be ordered separately using part numbers specified.

All accessory packs contain six screws for the six mounting points per plate.

Screws are a M4 threaded screw with micro-encapsulation to provide resistance against coming loose. Screws are supplied with concealed fix furniture. For screws longer than 65mm, order SP0655MBK (75mm screws).
### Detention Series Square Plate Furniture Ordering Procedure

When ordering 04, 06, 13, 14, 15, 16, 59, 60, 61, 65, 66 or 67 functions with 3770 series, refer to “Cylinder Type” specification for difference in part numbers.

Sample part number 220D01NA/21LSS is made up of several sections. Choose your product by selecting an option from each section.

Palladium® Series Furniture

French Door - PLFD Versions
These are used on the fixed door of a set of double doors. The outside furniture has no visible screws, no cylinder hole and the handle is fixed. The inside furniture has visible screw fixings, is used to operate two way locking and has a cylinder hole. This works with the cylinder supplied with the two way lock.

Passage - PL1 Versions
These are used on the active door of either single or double doors. The outside furniture has no visible screws, no cylinder and the handle operates the latch on the lock. The inside furniture has visible screw fixings, no cylinder hole and the handle operates the latch on the lock.

Double Cylinder - PL4 Versions
These are used on the active door of either single or double doors. The outside furniture has no visible screws, a cylinder hole and the handle operates the latch on the lock. The inside furniture has visible screw fixings, a cylinder hole and the handle operates the latch on the lock. Handles operate bolts when used with a compatible multi point lock.

Dummy - PL5 Versions
These are used on the fixed door of a set of double doors. The outside furniture has no visible furniture screws, no cylinder hole and the handle is fixed. The inside furniture has visible screw fixings, no cylinder hole and the handle is fixed.

Indicating with Snib - PX4 Versions
These are used on the active door of either single or double doors. The outside furniture has no visible screws, a cylinder hole and the handle operates the latch on the lock. The inside furniture has visible screw fixings, a cylinder hole and the handle operates the latch on the lock. The snib on the inside locks and unlocks the handles and the indicator is red when the cylinder is locked.

NOTE: Not all decorative finishes apply to every Lockwood product. Refer to the table at the end of this document for specific decorative finishes applicable per series.

*Unlacquered Metal Finish. This finish will naturally age and its appearance will change over time according to the environment and use it is exposed to. For more information on the aging effect of a particular finish contact your ASSA ABLOY representative.

**Finish is protected by a top clear lacquer.

Disclaimer: Product Colours displayed in this catalogue have been matched to indoor viewing and colour appearance may vary according to light source and medium and as such should be used as indicative only. As actual colour on the end product may vary, always confirm your colour choice with production line prepared samples from your ASSA ABLOY representative for final colour approval. For warranty terms and conditions on Lockwood Products and its finishes, please visit www.lockweb.com.au or call 1300WARRANTY.

Lockwood is the leading brand in the Australian locking industry. With an established reputation for high quality products, this iconic brand provides a wide range of locking solutions to residential housing, commercial, semi-commercial, building and industrial application markets. Lockwood is supported by an extensive distribution and after-sales support network. Our customers include retailers, architects, trade and industrial personnel, locksmiths and security dealers.

ASSA ABLOY is the global leader in door opening solutions, dedicated to satisfying end-user needs for security, safety and convenience.

ASSA ABLOY is represented in all major regions, in both mature and emerging markets, with leading positions in Australia, Europe and North America.

The Lockwood 25 Year Mechanical Warranty

Our belief that we manufacture the finest premium products available in today’s market place is backed by the Lockwood 25 Year Mechanical Warranty, ensuring that Lockwood continues to keep Australians safe by delivering security and peace of mind.
