The Lockwood Onyx Patio Sliding Door Lock incorporates advanced security and safety features making this product the ideal choice for sliding patio door applications.

**Style and Function**
This range takes design cues from contemporary architectural styling and complements several of Lockwood’s most popular levers to provide a harmonious look and feel throughout the home.

The functionality of the range has been enhanced by the intuitive operation of the unique sliding snib and the innovative LockAlert® feature that indicates the lock status at a glance.

**Application**
Surface mounted lockset suitable for use with most aluminium and timber sliding doors.

The flexible chassis coupled with innovative design features results in a non-handed product that is extremely easy to install and suitable for new and most retrofit applications.

**Product Range**
A wide selection of furniture options are available in the range to suit various sliding door applications. The range includes internal D handles and slim pulls and a variety of external furniture and strike options.

**Product Details**

---

^ Part number convention is for reference only, not all possible combinations will be available as a pre packed lockset. Some configurations will need to be made up of sub-assemblies. i.e. Two or more line items may be required to make up desired configuration.
Lockwood’s sliding door lock range is possibly the most innovative and aesthetically pleasing lock for a cavity sliding door in Australia. Combining elegance and ease of use, the Lockwood Cavity Sliding Door Lock range is ideal for any home décor and security solution.

Not only will the internal bathroom or lounge room sliding door have a contemporary look, but the interconnecting door from the garage to the laundry can be fitted with a key lockable entrance-set for security.

**Features and Specifications**
- Fitted flush against the panel of the sliding door for full recess into the door cavity
- Entrance, Privacy, Passage and Passage Latch models available for the complete residential solution

**Retractable door pull**
Designed after extensive research, the sliding cavity door lock features an innovative retractable door pull which combines style with functionality.

**Key lockable solution**
The key lockable Entrance Set model protects sliding perimeter doors with the added confidence of Australian Standard compliance for AS4145.2-2008: Tested to exceed 30,000 turn cycles withstanding 3 kN of pull force.

680 Patio Bolt®

The Lockwood 680 Lockable Patio Bolt is a strong, heavy duty, surface mounted product designed to improve security in a range of residential sliding and hinge door applications.

It is easy to install and has been designed to suit a wide range of aluminium and timber sliding patio and hinge door applications.

It is offered in chrome plate, satin chrome pearl and a range of powdercoat finishes.

Keying

Standard Keying
- Supplied individually keyed with two keys per lock
- 78,000 key combinations
- Key blank KB2015P

Restricted Special Keying
Lockwood locks can be keyed to a number of controlled and/or specially keyed systems. These range from legally protected keys to protect against unauthorised duplication, which can also include specially designed key systems such as master key systems, which allow for different levels of mechanical access control.

Please refer to Lockwood Keying Catalogue or contact your local sales office or customer service for specific information.
